

Agustín Benvenuto

Software Engineering student at ITBA

SUMMARY

I'm a software engineer specializing in frontend development. I love building user-friendly, visually appealing applications with a strong focus on performance. I'm passionate about learning, staying up to date with industry trends, and researching user needs to design and implement complete solutions.

My goal is to contribute to the development of applications that meet or exceed expectations through collaboration with talented teams.

EXPERIENCE

Front End Developer, Helmi

March 2024 – Current

At Helmi, I'm responsible for designing and implementing everything at the frontend level, working closely with the product and backend teams to ensure a seamless experience, always prioritizing user satisfaction.

Node – React – Tailwind

Web Developer, web3tales

May 2023 – Feb 2024

Spearheaded the development of a full-stack Next.js web application. Led efforts in creating a highly responsive and visually appealing web app, prioritizing branding and employing cutting-edge SEO techniques.

Nextjs – React – Tailwind
